BADASS ABS FINISHERS

*10 Circuits that will carve you up so nicely,
Michelangelo would be proud*

Welcome to Badass Abs Finishers!

BBB ABS, as the title implies, is an add-on to the program, The Badass Body Blueprint.

That program, BBB, is one of the most comprehensive muscle building and transformation systems available--but, strangely, does not have a tremendous focus on abdominal training.

The goal of creating this for you was to challenge your abs like they've never been challenged before, while simultaneously doing what no other program has been able to accomplish: balancing you out.

Also its to make you have abs girls drool over...It has happened.

Normally, bodybuilders and fat loss extremists train and get imbalanced. They often get injured, or they end up hitting plateaus. Not us!

We're going to dominate. We are badasses. We perform like gods and look like models.

BBB ABS is going to rip you up and shred you down. Your body is going to transform at an incredible rate. But, I'm depending on you to give every workout maximum effort.

Deal?

Excellent!

There will be 10 different circuits which you can add on to the end of your regular BBB workout. Mix and match em. Some are harder. Some are easier. Some require equipment. Others do not.

I wanted to give you all the options so that you never have an excuse not to complete a circuit.
